Habasit Saniclip – new rod system for easy installation

Quick belt opening – cleaning made easy

Anything that can enhance the ease of sanitation processes in the food industry is a welcome and valuable improvement. This is where the new Habasit Saniclip comes in. Its innovative new rod system is designed for easy and quick rod installation and removal for frequent belt sanitation in demanding sanitary environments. The Saniclip solves the problems of time-consuming belt removal and the requirements for extraction tools that can easily deter operators from safe sanitary practices.

Experience confirms that at least 20 minutes are required for the maintenance staff to normally arrange for proper tooling and to open a standard belt. Habasit Saniclip is robust and provided with a safe tactile feel non-slip surface for easy manual extraction even in wet and greasy environments.

Extracted and reinstalled in seconds

Habasit Saniclip plug can be manually extracted and reinstalled directly by line operators in a matter of seconds, without any tools.

Extracted...

...and reinstalled in seconds

No tools needed

Plug and rod are interconnected as a single assembly to prevent accidental loss of plug component.
